

# Setting up WIFI

1. Click on the folder labeled Apple.

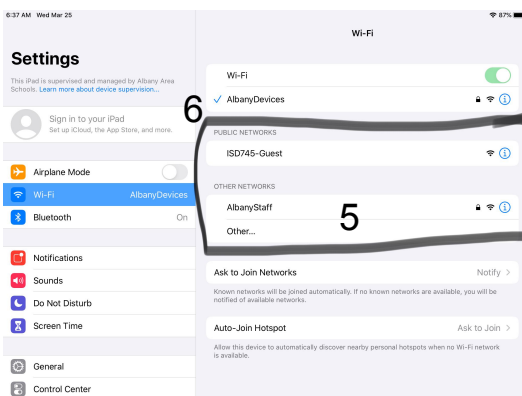

2. Click on the Settings icon.

3. Click on Wifi

4. Make sure Wifi toggle is on. It will be green.  
If you don't see your Wifi network, slide the toggle off and on.

5. Click on your WiFi network

6. Put in any required passwords when prompted. When you see a blue check mark next to your network name it is connected.

7. Click the Home Button to return to the main screen.
